

Individual Worksheet Tables

Role 1: Shop Owner

#	Requirement (as written)	Source (role/stakeholders)	Conflict	Ambiguity	Completeness	Consistency	Testability	Evolvability	Notes/Resolution
1	The system shall store enough client info such that, in the case an item is damaged or lost, we may follow-up with the client over email	Shop Owner	PASS	PASS	PASS	FAIL	PASS	PASS	
2	The system shall store client identifying info securely (i.e. guard against cyberattacks)	Shop Owner	PASS	FAIL	FAIL	PASS	FAIL	PASS	Resolution: rewrite as "The system shall satisfy PCI-DSS (Payment Card Industry Data Security Standard)"
3	System shall validate client info, so clients cannot give fake information	Shop Owner	PASS	FAIL	FAIL	PASS	PASS	PASS	Resolution: rewrite as "The system shall use OTP (One Time Passwords) to verify client identity"
4	The system shall be well documented throughout so future	Shop Owner	PASS	PASS	PASS	PASS	PASS	PASS	

	developers may easily extend it								
5	The system shall allow us to check the status of gear being rented	Shop Owner	PASS	PASS	PASS	PASS	PASS	PASS	
6	The system shall track metrics on rented gear and create easy-to-understand graphs and visuals using these metrics	Shop Owner	PASS	FAIL	PASS	PASS	PASS	PASS	Resolution: Split into 2 new requirements: 1. "The system shall record which customer currently has each rented equipment." 2. "The system shall provide a report on what gear is out right now, what's overdue, and which items get rented most"
7	The system shall have easy to read guides on how to start the system, stop the system, and troubleshoot errors in the system	Shop Owner	PASS	FAIL	PASS	PASS	FAIL	PASS	Resolution: Rewrite as "The system shall have guides targeted at nontechnical users for how to

									start the system, stop the system, and troubleshoot errors in the system"
8	The system shall allow employees to edit gear info in case we input the wrong information	Shop Owner	PASS	PASS	PASS	PASS	PASS	PASS	
9	The system shall allow us to toggle which items need deposits and which don't. This includes manual toggle, as well as applying filters (e.g. all items that cost more than \$200, all items that are larger than 1m^3)	Shop Owner	PASS	PASS	PASS	PASS	PASS	PASS	
10	The system shall cost no more than \$10 a month to run	Shop Owner	PASS	PASS	PASS	PASS	PASS	PASS	

Role 2: Rental Clerk (Front-Desk Staff)

#	Requirement (as written)	Source (role/stakeholders)	Conflict	Ambiguity	Completeness	Consistency	Testability	Evolvability	Notes/Resolution
1	The system shall be fast and simple to use	Rental Clerk	PASS	FAIL	FAIL	PASS	FAIL	PASS	Resolution: split it into several requirements: "The system shall take no longer than half a second to verify my credentials, take no longer than half a second to load each page, and take no longer than half a second to reflect any updates I input as an employee." "The system shall require

									no more than 15 minutes of onboarding to be used effectively by any employee"
2	The system shall know who previously just used a piece of gear	Rental Clerk	PASS	FAIL	PASS	PASS	PASS	PASS	Resolution: rewrite as "The system shall track the client who previously rented each piece of gear"
3	The system shall be able to search by the name of the client or gear	Rental Clerk	PASS	FAIL	FAIL	PASS	PASS	PASS	Resolution: Split requirements more clearly "The system shall be able to search up gear items by name as well as the name of rental clients" "The

									system shall add an additional short numerical identifier if multiple clients have the exact same name.”
4	The system shall be able to flag gear that has been returned damaged as “out of service”	Rental Clerk	PASS	PASS	PASS	PASS	PASS	PASS	
5	The system shall utilise an ID and deposit-based system when clients take out high value gear to advise clients to be more careful (and to partly pay for damages for high value gear if there are any)	Rental Clerk	PASS	PASS	PASS	PASS	PASS	PASS	

Role 3: Renter (Customer)

#	Requirement (as written)	Source (role/stakeholders)	Conflict	Ambiguity	Completeness	Consistency	Testability	Evolvability	Notes/Resolution
1	The system shall display whether gear is available in real time	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
2	The system shall check items out within several seconds or less	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
3	The system shall display what items I am due to return, and when I should return them, in an easy-to-read and intuitive fashion	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
4	The system shall not use deposits for gear	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
5	The system shall not ask more from me other than name and phone number when renting equipment	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
6	The system shall allow me to easily extend my rentals	Customer	PASS	FAIL	FAIL	PASS	FAIL	PASS	Resolution: rewrite as "The system shall allow clients to extend their rentals for an additional 3 days or further for additional charges in a

									visually clear and responsive manner (if the rented gear hasn't been majorly damaged)
7	The system shall keep me informed of upcoming due dates for rented gear	Customer	PASS	PASS	PASS	PASS	PASS	PASS	
8	The system shall be online during store times so that I may return my gear and have the return be properly logged	Customer	PASS	PASS	PASS	PASS	PASS	PASS
